

Dear Parents, Guardians and Students:

It is a different world today than it was just one week ago. In order for us at KRPA to help insure the safety and security of your students and your relatives, KRPA will be closed for the foreseeable future. In an effort to keep your students from falling too far behind, the 7th grade teachers have put together a packet of work for your student to complete during this unprecedented school closure.

Enclosed in the packets you will find review lessons as well as topics which have just recently been covered or may be covered at a future time. Your student is to do their best to complete the packet, not in a haphazard manner, but in an academic, conscientious manner. This way your student will be less likely to fall behind because of the school closures.
